2 Vertical

Handle with care, fragile materials.

Use only LED bulb

Installation Guide

Horizontal Configuration Pendant Lamp

We suggest that any electrical work be performed by a specialist.

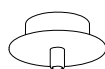

CAUTION: Turn off the power supply before executing any electrical installation.

We recommend incorporating structural reinforcement elements in drywall or comparable wall and ceiling finishes.

Parts included.

Canopy
(1 pc.)

Diffuser
(6 pcs.)

Light crossbar
(1 pc.)

Decentralizer
(1 pc.)

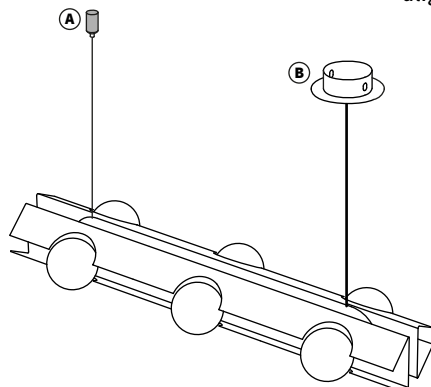

Wall Plug
(3 pcs.)

G9 Bulbs
(6 pcs.)

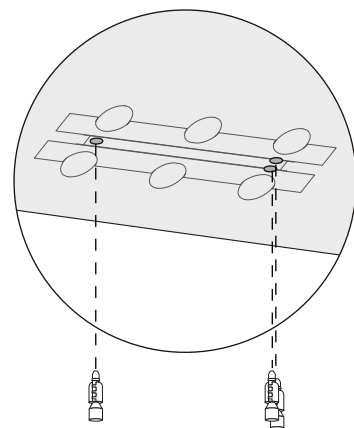

Screw
(3 pcs.)

1

Placement of wall plugs. Before drilling, mark the location of the screws according to the **Fixing Template** and ensure that they are correctly aligned.

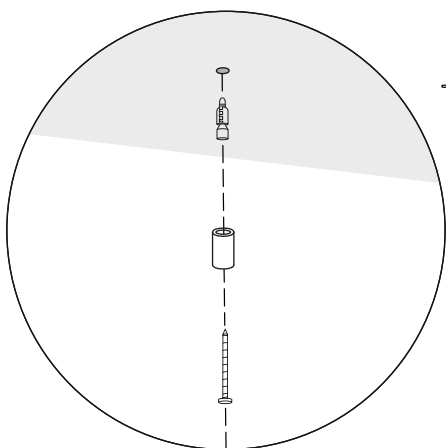

x2

The installation should be done by two people.

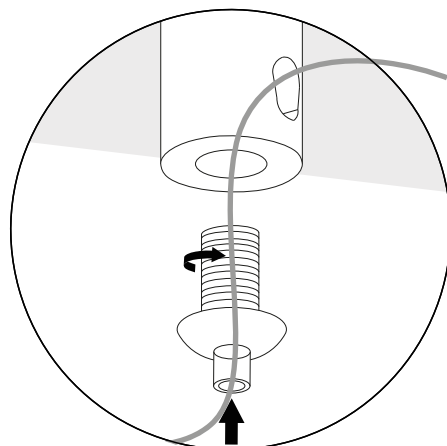

2^A

Secure the decentralizing barrel.

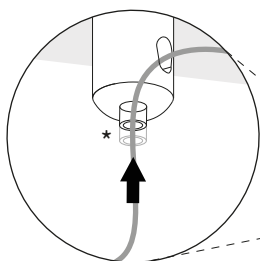

3^A

Pass the tension cable through the decentralizer.

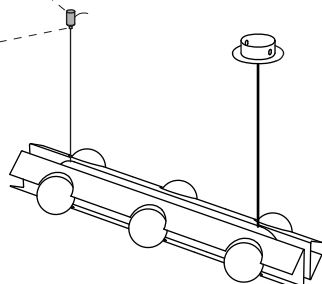

4^A

Level the light fixture and adjust to the required height.

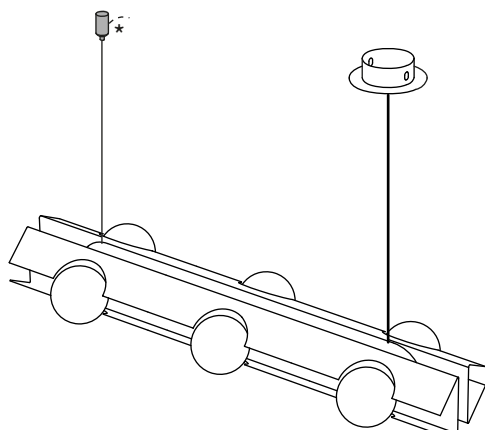

* Press to adjust the tension cable

5^A

After making the electrical connection, cut off any excess of tension cable.

Handle with care, fragile materials.

- To replace the LED module, contact Bandido directly.
- Driver integrated in the product.

Handle with care, fragile materials.

Use only LED bulb

Installation Guide

Pendant Lamp

CAUTION: Turn off the power supply before executing any electrical installation.

We suggest that any electrical work should be performed by a qualified electrician.

Parts included.

Canopy
(1 pc.)

Cable Holder "8"
(1 pc.)

Fastener
(1 pc.)

Plate with hook
(1 pc.)

Wall plugs
(2 pcs.)

Driver
(1 pc.)

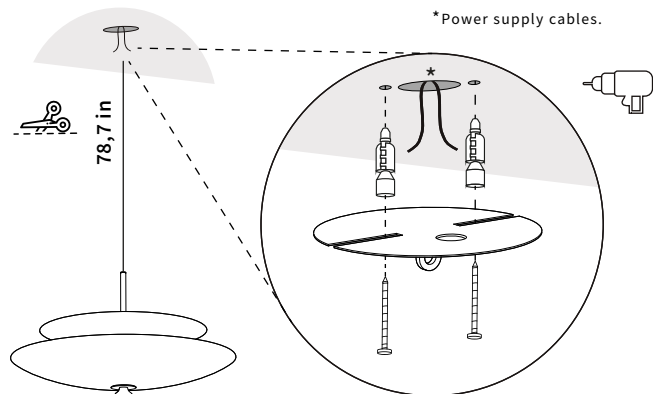

Screws
(2 pcs.)

Cable Gland
(1 pc.)

1

Cut the cable to the desired length. Place the wall plugs and fix the plate with the screws to the ceiling.

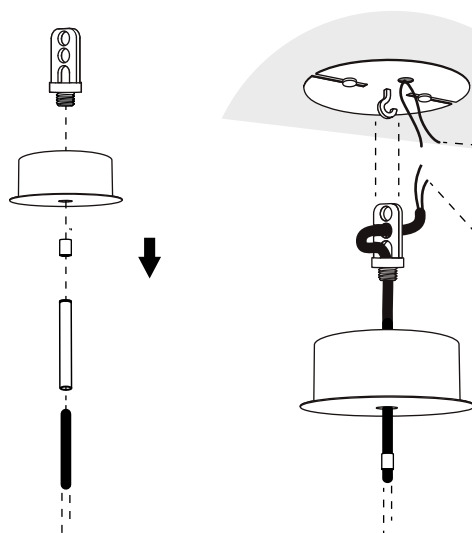

The installation should be done by two people.

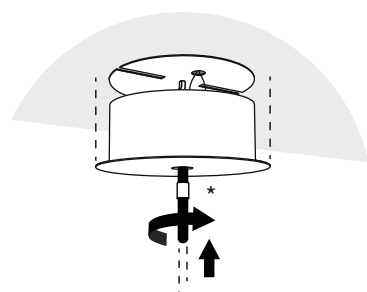

2

Pass the cable gland, fastener, canopy and cable holder "8" through the cable, then hang it on to the hook.

4

Canopy fastening.

*Place Driver inside the canopy.

*Screw fastener lightly until the canopy is secure.

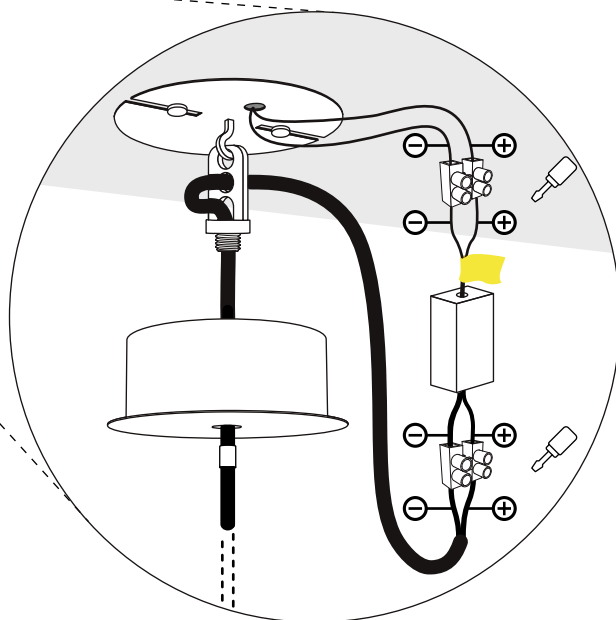

3

Connect the wires through the Driver according to the cable label.

CAUTION RISK OF ELECTRIC SHOCK

Follow the instructions from cable label for electrical installation.

Connection of cables from lamp to Driver:

Positive (+) with positive (+).

Negative (-) with negative (-).

CAUTION Ensure that all connections are properly set before turning on. Incorrect use of the driver may damage the LED.

Installation Guide

Circular Canopy

We suggest that any electrical work should be performed by a qualified electrician.

CAUTION: Turn off the power supply before executing any electrical installation.

This instruction manual applies to the following measures of the circular canopy:
ø2,95 in.

Parts included:

Canopy
(1 pc.)

Fasteners
(2 pcs.)

Steel Plate
(1 pc.)

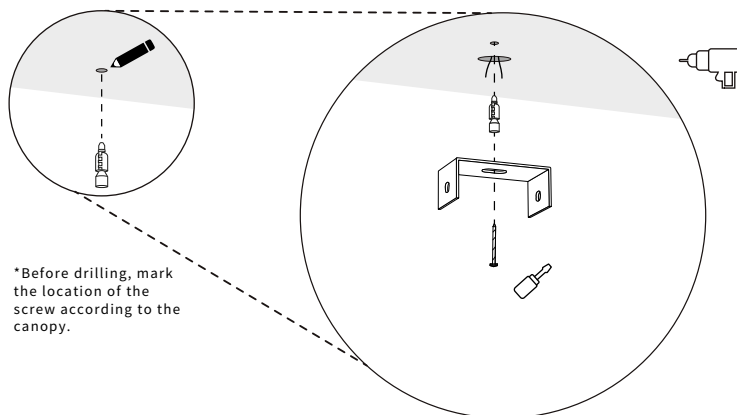

Wall plug
(1 pc.)

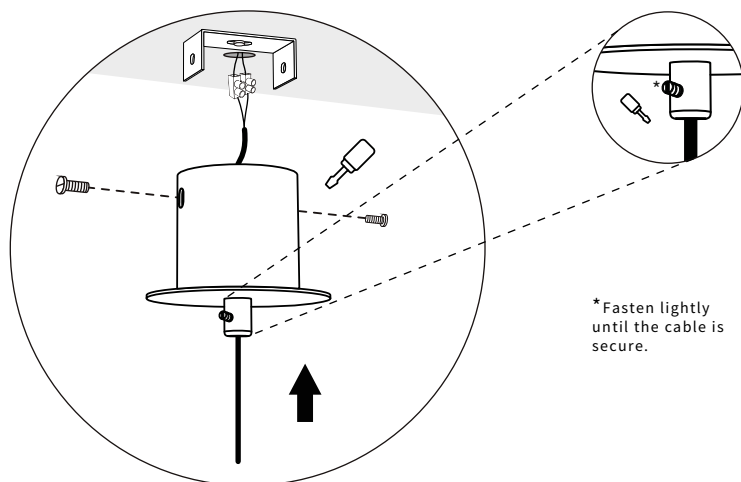

Screw
(1 pc.)

1 Wall plugs placement. (Reference Canopy Measure: Ø 2,95 in).

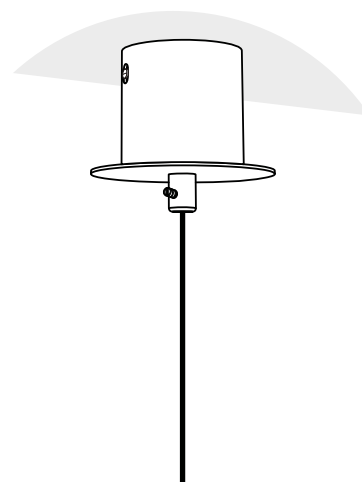

2 Canopy fastening.

*Fix the canopy, once the electrical installation has been completed.

3 Final.

Handle with care, fragile materials.

Installation Guide

Circular Canopy

We suggest that any electrical work should be performed by a qualified electrician.

CAUTION: Turn off the power supply before executing any electrical installation.

This instruction manual applies to the following measures of the circular canopy:
7,8 in / 17,7 in / 23,6 in / 31,4 in.

Parts included.

- The amount of materials depends on the dimensions of the canopy to be installed.
- Wall plugs are specific for concrete slab.

Canopy
(1 pc.)

Cable Holder with screw
(According to the canopy)

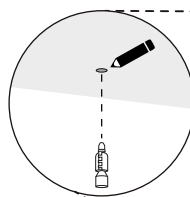

Wall plugs
(According to the canopy)

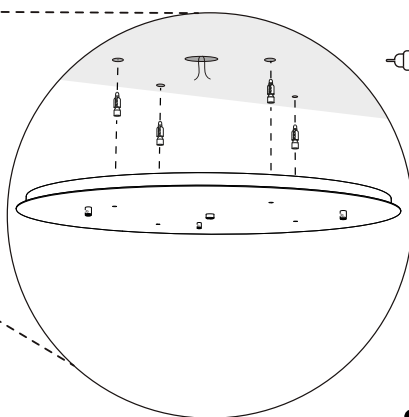

Screws
(According to the canopy)

1 Wall plugs placement. (Reference Canopy Measure: Ø 23,6 in).

*Before drilling, mark the location of the screws according to the canopy.

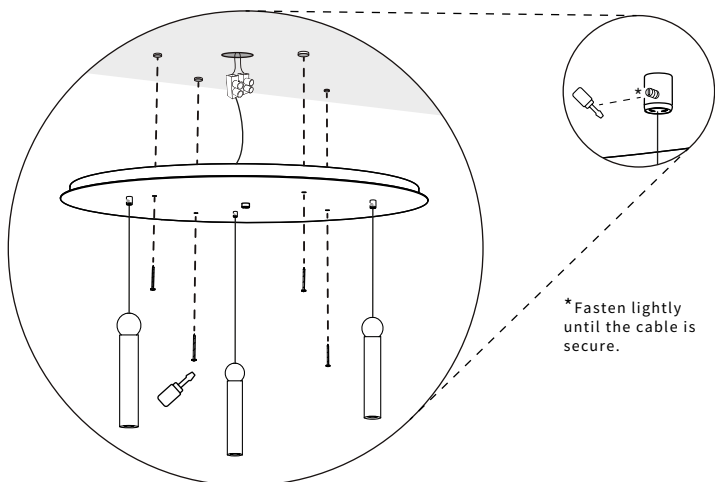

x2

The canopy installation should be done by two people.

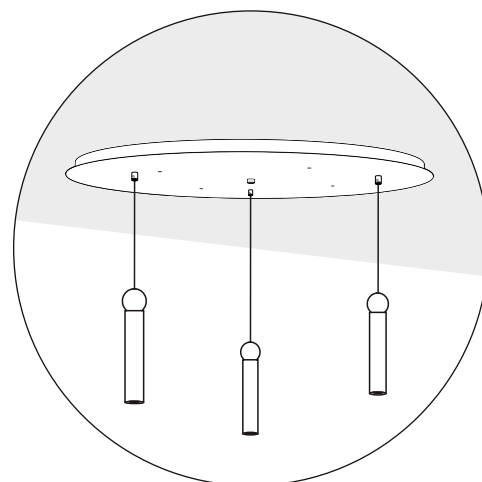

2 Canopy fastening.

*Fix the canopy, once the electrical installation has been completed.

*Fasten lightly until the cable is secure.

3 Final.

Handle with care, fragile materials.

Installation Guide

Rectangular Canopy

We suggest that any electrical work should be performed by a qualified electrician.

CAUTION: Turn off the power supply before executing any electrical installation.

This instruction manual applies to the following measures of the rectangular canopy:

19,6 in / 31,4 in / 23,6 in / 39,3 in / 49,2 in / 59 in.

Parts included.

- The amount of materials depends on the dimensions of the canopy to be installed.
- Wall plugs are specific for concrete slab.

Canopy
(1 pc.)

Cable Holder with screw
(According to the canopy)

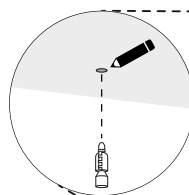

Wall plugs
(According to the canopy)

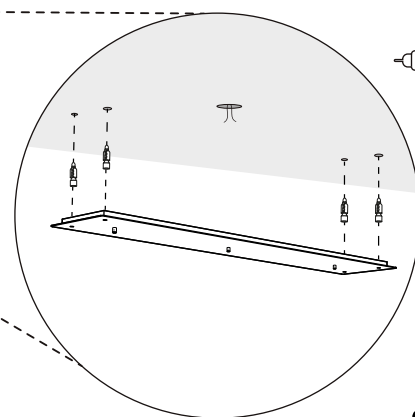

Screws
(According to the canopy)

1

Wall plugs placement. (Reference Canopy Measure: 31,4 in x 5,9 in).

*Before drilling, mark the location of the screws according to the canopy.

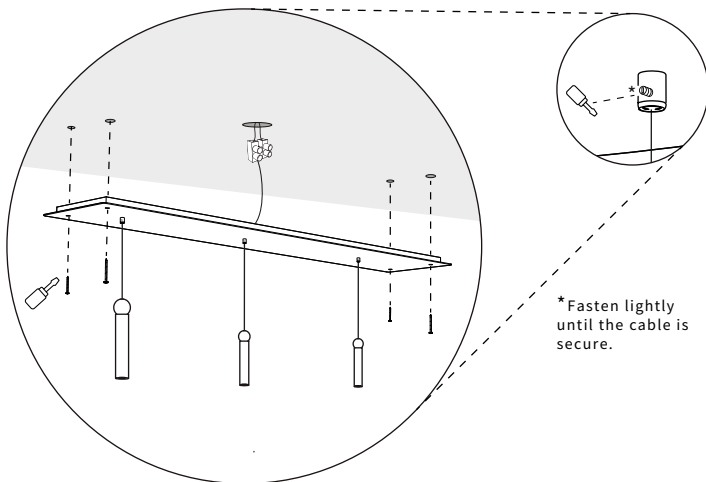

x2

The canopy installation should be done by two people.

2

Canopy fastening.

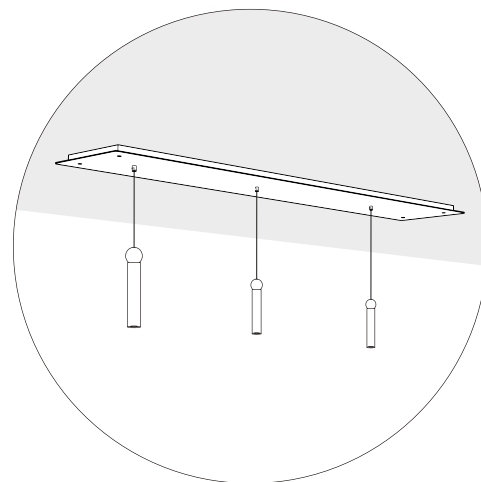

*Fix the canopy, once the electrical installation has been completed.

*Fasten lightly until the cable is secure.

3

Final.

Handle with care, fragile materials.

Installation Guide

Circular Canopy Ø 47,2 in

We suggest that any electrical work should be performed by a qualified electrician.

CAUTION: Turn off the power supply before executing any electrical installation.

This instruction manual applies to the following measures of the circular canopy:
Ø 47,2 in.

Parts included.

Wall plugs are specific for concrete slab.

Canopy
(1 pc.)

Cable Holder with screw
(According to the canopy)

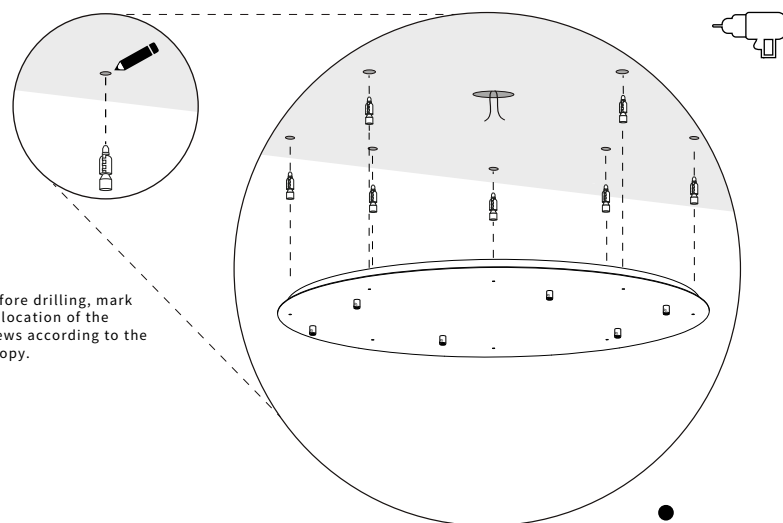

Wall plugs
(8 pcs.)

Screws
(8 pcs.)

1 Wall plugs placement. (Reference Canopy Measure: Ø 47,2 in).

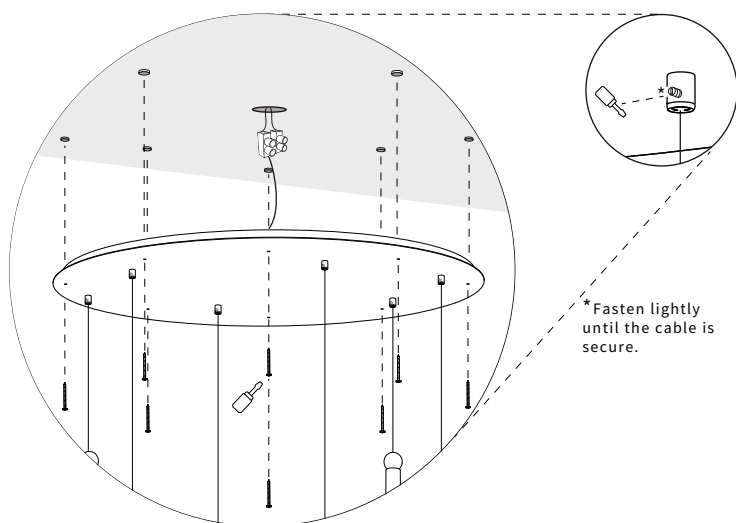

*Before drilling, mark the location of the screws according to the canopy.

The canopy installation should be done by four people.  x4

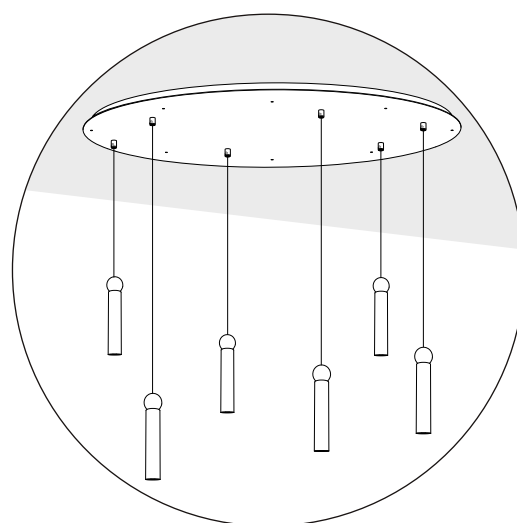

2 Canopy fastening.

* Fix the canopy, once the electrical installation has been completed.

*Fasten lightly until the cable is secure.

3 Final.

Handle with care, fragile materials.
